What is Podiatry?

Podiatry is the treatment of foot and leg problems.

Podiatrists look at the normal position and development of children’s feet and legs.

Our clinic will see children of all ages from newborns to young adults.

Reasons why children visit a Podiatrist

Problems with children’s feet and legs often do not cause them pain.

It may be hard for children to describe the problem to their parents.

It is important for parents to look for signs of problems with their child’s feet and walking.

Some common signs to look for are:

• Walking in an unusual way such as in/out, flat feet, on tip toes
• Pain, tiredness or discomfort when walking
• Not meeting normal development steps
• Redness or wear marks on feet
• Uneven wear on shoes
• Warts, skin and toenail problems

Find out how you can access this service on the next page
Who can come?
Children from 0 – 25 years who live or work in the City of Glen Eire, City of Stonnington, City of Port Phillip or City of Bayside (North of South Rd).

If you have any questions, call the team

How can I access the service?
Referrals can be made by yourself, your doctor or health care professional by contacting Caulfield Access.

Do fees apply?
At CCHS, fees apply to our services. Fees are set in line with government guidelines and are based on your income. When you call us, fees will be explained and discussed with you. If you are concerned about fee affordability, please let us know.
